Exercise Workbook — Sunday, April 20, 2026

INSTRUCTOR: ARJUN | OSMAGENT | OSMAPI | OSMTALK

Participant

Name: _____

Date: April 20, 2026

Your Journey Today

From idea to fully operational AI-powered venture — built in a single day using osmAgent, osmAPI, and osmTalk.

PRE-WORK

Account Setup Checklist

Complete all three steps **before Module 1 begins**. Raise your hand if you get stuck at any point.

osmAPI Account

Go to **osmAPI.com** → Sign Up → Enter email & password → Verify email

osmTalk Account

Go to **app.osmtalk.com** → Sign Up → Enter email & password → Verify email

osmAgent Access

Open osmAgent from the osmAPI dashboard → Confirm you see the **chat interface**

⚠ Troubleshooting: Check spam folder if no verification email arrives. Try incognito mode if the page won't load. Raise your hand if stuck.

MODULE 1

Find Your Million-Dollar Idea

Every great venture starts with a clear, compelling statement. Fill in your venture statement below before proceeding.

> I am building _____ for _____ because _____

The Agent-Creatable Test

Score each criterion: **Yes = 1, No = 0**. You need a total of 4 or more to proceed.

Criterion	Score	Yes/No
Core service delivered digitally	___	[ ]
Customer acquisition via website + chat + calls	___	[ ]
Payments collected online	___	[ ]
Support automated via AI	___	[ ]
Ops run on agents + minimal oversight	___	[ ]
Total (need 4+)	**___/5**	

MODULE 1 — EXERCISE

Generate Your Venture Blueprint

Open osmAgent and paste the prompts below, filling in your specific details. These two prompts will generate your complete business foundation.

Prompt 1 — Business Blueprint

"I want to start a [YOUR IDEA] business targeting [YOUR AUDIENCE] in India. Help me create:"

1. A one-paragraph business description
2. Target customer profile with demographics and pain points
3. Top 5 services or products with suggested pricing in INR
4. Revenue model
5. Why this business is perfect for AI agent automation

Prompt 2 — Market Intelligence

"For my business:"

1. Who are the top 5 competitors in India?
2. What's the estimated market size?
3. Suggest 3 unique differentiators
4. What's the biggest risk and how do I mitigate it?

Module 1 Self-Grade — /25

Criterion	Score	Max
Clear problem being solved	___	/5
Defined target customer	___	/5
Viable revenue model	___	/5
Fully agent-creatable	___	/5
Competitive differentiation	___	/5

MODULE 2

Build Your Brand in 20 Minutes

A powerful brand is built on four pillars. Work through each step sequentially using osmAgent — you'll have a complete brand identity in under 20 minutes.

Step 1

Name Generation

Step 2

Logo Creation

Step 3

Brand Voice

Step 4

Tagline & Legal

Each step builds on the previous — your name informs your logo, your logo informs your voice, and your voice shapes your tagline.

MODULE 2 — EXERCISE

Brand Identity Prompts & Capture

1

Name

"Generate 10 business name options for [your venture]. Requirements: memorable, easy to pronounce, available as .com domain, appeals to [target audience]."

My chosen name: _____

2

Logo

"Create a professional logo for [brand name]. Business: [type]. Audience: [audience]. Style: [modern/minimal/bold/playful]. Generate 3 concepts."

Selected concept: ___

3

Brand Voice

"Define brand voice for [brand name]. Generate: (1) Brand personality in 3 words, (2) Tone guidelines, (3) 5 sample social posts, (4) Email greeting style, (5) How we handle complaints."

My 3 personality words: _____, _____, _____

4

Tagline & Legal

"Generate: (1) 5 tagline options, (2) 30-second elevator pitch, (3) Instagram/LinkedIn bios, (4) Terms of Service, (5) Privacy Policy."

Chosen tagline: _____

Module 2 Self-Grade — /25

Criterion	Score	Max
Memorable name	___	/5
Professional logo	___	/5
Consistent voice	___	/5
Clear tagline	___	/5
Brand cohesion	___	/5

MODULE 3

Your Digital Storefront

Your website is your 24/7 salesperson. Use osmAgent to build and deploy a conversion-focused site with all essential pages in one session.

🏠 Homepage

Hero section with clear headline + CTA above the fold

🛍️ Services

All 5 services with transparent pricing from Module 1

👤 About

Founder story that builds trust and connection

⭐ Testimonials

Social proof section to overcome objections

📬 Contact

Form + location + all contact details

ⓘ Add-on prompt: "Add SEO meta tags for all pages, a blog section with 3 starter posts about [industry], and Google Business Profile suggestions."

MODULE 3 — EXERCISE

Website Build & Deploy

Build Prompt

"Build a professional website for [brand name]. Include: homepage with hero section and CTA, services page with [your 5 services] and pricing, about page with founder story, testimonials section, contact page with form. Use brand colors from Module 2. Make it conversion-focused."

Capture Your Results

Neighbor's feedback: _____

Website Launch Checklist

Hero headline is clear and compelling	[ ]
CTA visible above the fold	[ ]
Services listed with pricing	[ ]
Mobile responsive	[ ]
Contact form works	[ ]

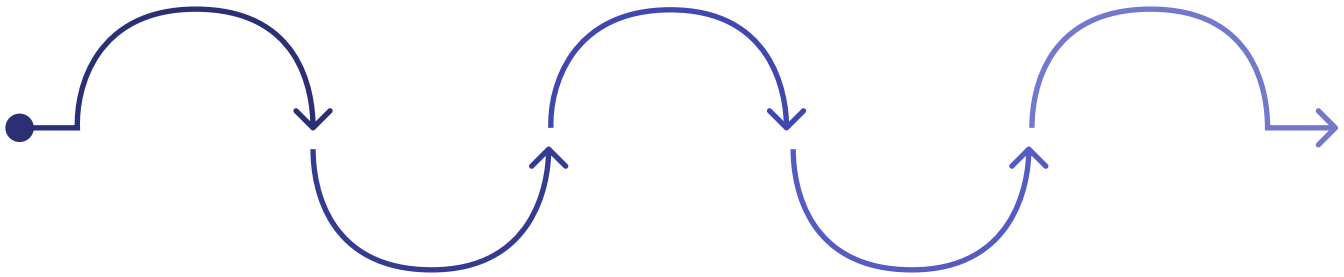
Module 3 Self-Grade — /25

Value proposition	___	/5
Design & brand match	___	/5
Services clear	___	/5
CTA placement	___	/5
Mobile-friendly	___	/5

MODULE 4

Your AI Receptionist

Deploy an osmTalk chatbot that handles inquiries, answers FAQs, and books appointments — automatically, around the clock.



Follow each step in sequence. Your chatbot should be live and embedded on your website before moving to Module 5.

FAQ Generation Prompt

"Generate 15 FAQs and answers for [brand name], covering services, prices, booking, hours, location, payments, refunds, and 5 industry-specific questions."

Greeting Message

"Hi! Welcome to [Brand Name]. How can I help you today?"

Customize widget with brand colors, logo, and welcome message before embedding.

MODULE 4 — EXERCISE

Chatbot Test & Self-Grade

Run each test conversation and mark whether the response was accurate and on-brand. A well-configured bot should pass all four tests.

Test Conversations

Test Prompt	Result	Pass?
"What services do you offer?"	Accurate?	[ ]
"How much does [service] cost?"	Accurate?	[ ]
"I'd like to book"	Works?	[ ]
Random off-topic question	Graceful?	[ ]

Module 4 Self-Grade — /20

Natural greeting	___	/5
Accurate answers	___	/5
Graceful unknowns	___	/5
Brand voice	___	/5

A score of 16+ means your AI receptionist is ready for real customers!

MODULE 5

The Voice of Your Business

Give your brand a literal voice. Module 5 covers three distinct voice deployments — inbound customer service, outbound recruiting, and WhatsApp automation.

Exercise A

Customer Voice Agent (Inbound)

Exercise B

Recruiting Call Center (Outbound)

Exercise C

WhatsApp Automation

All three voice channels work together to create a seamless, professional communication experience for customers, candidates, and leads.

MODULE 5 — EXERCISE A & B

Voice Agent Configuration

Exercise A — Inbound Customer Line

- Name: [Brand] Customer Line
- Voice: select from samples
- Languages: English + Hindi
- Greeting: *"Thank you for calling [Brand Name]. How can I help you today?"*

Configure scenarios: service inquiry, booking, pricing, complaint, directions

Escalation: transfer to your phone if agent can't answer

Test: Call from your mobile phone [ ]

Inbound number: _____

Exercise B — Outbound HR Recruiter

Name: [Brand] HR Recruiter

Script Questions:

1. Relevant experience?
2. Why interested in this role?
3. Available to start when?
4. Salary expectations?
5. Questions about the role?

Scoring: Experience 0–3 | Motivation 0–2 | Availability 0–2 | Salary fit 0–2 | Engagement 0–1

Exercise C — WhatsApp

Connect WhatsApp → Set auto-greeting → Configure FAQ responses → Test all flows

MODULE 5 — PEER TEST & GRADE

Peer Review & Self-Grade

> Have your neighbor call your inbound voice agent. Capture their honest feedback below — this is one of the most valuable quality checks of the day.

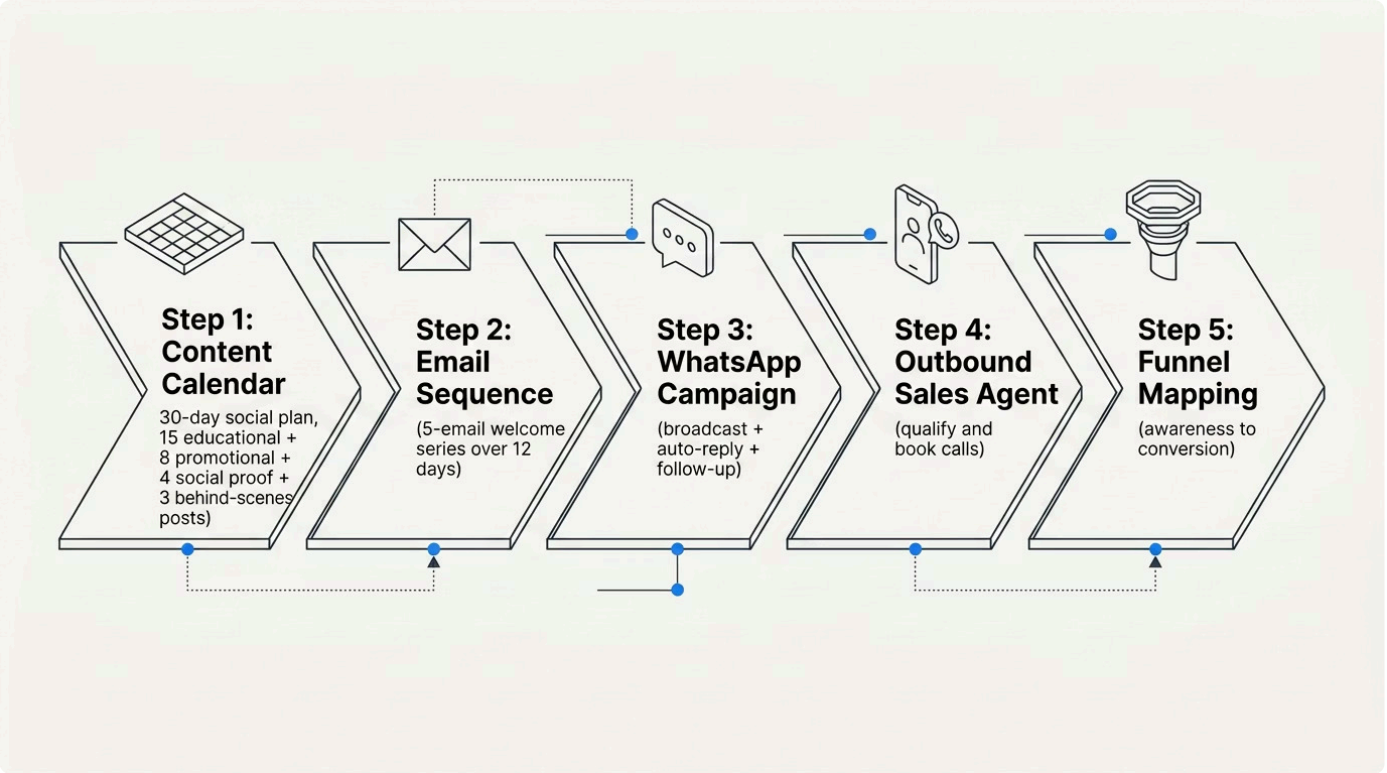
MODULE 6

The Growth Engine

Module 6 transforms your brand into a lead-generating machine. Five interconnected steps build a complete growth system — from content to conversion.



MODULE 6 — EXERCISE

Build Lead Gen & Sales

1

Content Calendar

"Generate a 30-day social media calendar for [brand]. Include: 15 educational, 8 promotional, 4 social proof, 3 behind-scenes posts. Format for LinkedIn + Instagram with hashtags and posting times."

2

Email Sequence

"Write 5-email welcome sequence: Email 1 (Day 0) Welcome + story, Email 2 (Day 2) Problem we solve, Email 3 (Day 5) Success story, Email 4 (Day 8) Special offer, Email 5 (Day 12) Last chance + CTA."

3

WhatsApp Campaign

In osmTalk: Create broadcast template → Launch message → Auto-reply flow → Follow-up Day 1, 3, 7

4

Outbound Sales Agent

Script: *"Hi, I'm calling from [Brand]. We launched [service] and thought it might help. Do you have 2 minutes?"* → Qualify → Book or thank

MODULE 7

Show Me the Money + Operations

The final module closes the loop — payments, support, operations documentation, and a full end-to-end test of your entire venture stack.

Payments

UPI links, invoices, 3-tier pricing

Support System

Post-sale FAQs, complaint flow, feedback

End-to-End Test

7-point full system verification

Ops Docs

Onboarding guide, SOPs, scripts

MODULE 7 — STEP 1 & 2

Payments & Support System

Step 1 — Payments

- Generate UPI payment link for primary service
- *"Create invoice template for [brand] with logo, GST, payment terms, UPI QR code."*
- *"Suggest pricing for [services] — 3 tiers: Basic, Standard (recommended), Premium."*
- Configure WhatsApp payment confirmation in osmTalk

My pricing:

Basic Rs.___ | Standard Rs.___ | Premium Rs.___

Step 2 — Support System

Update chatbot with post-sale FAQs, complaint flow, and feedback collection.

Update voice agent for support: *"Thank you for calling support. Let me help."*

Escalation Matrix

Level	Handler	Volume
L1	AI Only	80%
L2	AI + Human	15%
L3	Human Only	5%

MODULE 7 — STEP 3 & 4

Operations Docs & End-to-End Test

Step 3 — Operations Documents

Use osmAgent to generate your complete operations package:

→ **Employee Onboarding Guide**

Step-by-step guide for new team members joining your venture

→ **SOPs for Top 3 Services**

Standard operating procedures ensuring consistent service delivery

→ **Customer Service Scripts**

Scripted responses for common scenarios across all channels

Step 4 — End-to-End Test
