Find Your Million-Dollar Idea

MODULE 1 OF 6

10:00 – 10:45 AM · 45 MINUTES

Every participant identifies and validates an **agent-creatable venture idea** — a business that AI can plan, run, and scale with minimal human overhead.

Session Roadmap

1

📖 Instruction

15 min — Frameworks, idea galleries, decision guide

2

🛠️ Hands-On

20 min — Use osmAgent to validate your idea live

3

📊 Evaluation

10 min — Self-grade your venture with a 25-point rubric

By 10:45, you will leave with a validated idea, a business description, target customer profile, pricing, and competitive analysis — all generated by AI.

The Agent-Creatable Venture Test

Not every business idea works with AI agents. Run yours through this **5-point test** before investing time or money.

1

Digital Delivery

Core service can be delivered or orchestrated entirely online

2

Digital Acquisition

Customers reached via website, chat, and phone calls

3

Online Payments

Revenue collected via UPI, payment links, or online gateway

4

Automated Support

Customer queries handled by text + voice AI agents

5

Lean Operations

Day-to-day ops run by AI agents with minimal human oversight

Score 4 out of 5? You are ready to build. Perfection is not required on day one.

The Agent Stack — How the Platforms Divide the Work

Every qualifying venture maps cleanly across three platforms. Each has a distinct role.

osmAgent

- Business planning & branding
- Website & content creation
- Legal documents & invoices
- Social media & operations docs

osmTalk

- Website chat & WhatsApp automation
- Inbound & outbound phone calls
- Appointment booking & recruiting
- 24/7 customer support

osmAPI

- Multilingual intelligence
- Dynamic model routing
- Backend processing & integrations

Venture Idea Gallery — Purely Online

These businesses operate end-to-end in the digital world. Every function — from acquisition to delivery — can be agent-automated from day one.

Venture Idea	osmAgent Does	osmTalk Does
AI Tutoring Academy	Curriculum design, content, pricing plans	Enrolment calls, doubt-clearing chat
Virtual Fitness & Nutrition Coaching	Program creation, invoicing, social content	Client check-ins, booking, WhatsApp nudges
Digital Marketing Agency (SMBs)	Proposals, reports, social calendars	Lead qualification, client support
Resume & Career Coaching	Service packages, templates, testimonials	Discovery calls, session scheduling
Virtual Bookkeeping & Accounting	Engagement letters, invoices, SOPs	Client onboarding calls, query resolution
Content & Copywriting Agency	Briefs, drafts, client decks	Inbound leads, revision requests
SaaS Micro-Tool (Invoice/Proposal Builder)	Product copy, onboarding docs, FAQs	Trial support, upgrade conversations
Freelancer Staffing Agency	Job descriptions, vetting criteria, contracts	Recruiter calls, candidate screening

Venture Idea Gallery — Online + Offline

These hybrid ventures combine **physical service delivery** with fully AI-powered customer interaction, booking, and operations management.

Home Services Marketplace

osmAgent manages SOPs & vendor contracts. osmTalk books jobs and handles complaints.

Real Estate Brokerage

osmAgent creates listings and legal docs. osmTalk qualifies buyers and schedules viewings.

Health Clinic System

osmAgent builds patient forms and billing docs. osmTalk handles appointment booking and reminders.

Restaurant & Cloud Kitchen

osmAgent manages menus and promotions. osmTalk takes orders via WhatsApp and phone.

Beauty Salon & Spa

osmAgent creates service menus and loyalty programs. osmTalk handles bookings and upsell calls.

Pharmacy Delivery & Consultation

osmAgent manages product listings and compliance docs. osmTalk processes prescription orders and follow-ups.

How to Choose Your Idea

1. **Lead with domain expertise**

   Pick something you know. Your background is a competitive moat — market size matters less than your unfair advantage.

2. **Pick a pain you've felt personally**

   If you've been a frustrated customer in this space, you already understand what to fix and how to position it.

3. **Run the 5-point test**

   Don't skip this step. A score of 4/5 is your green light to proceed.

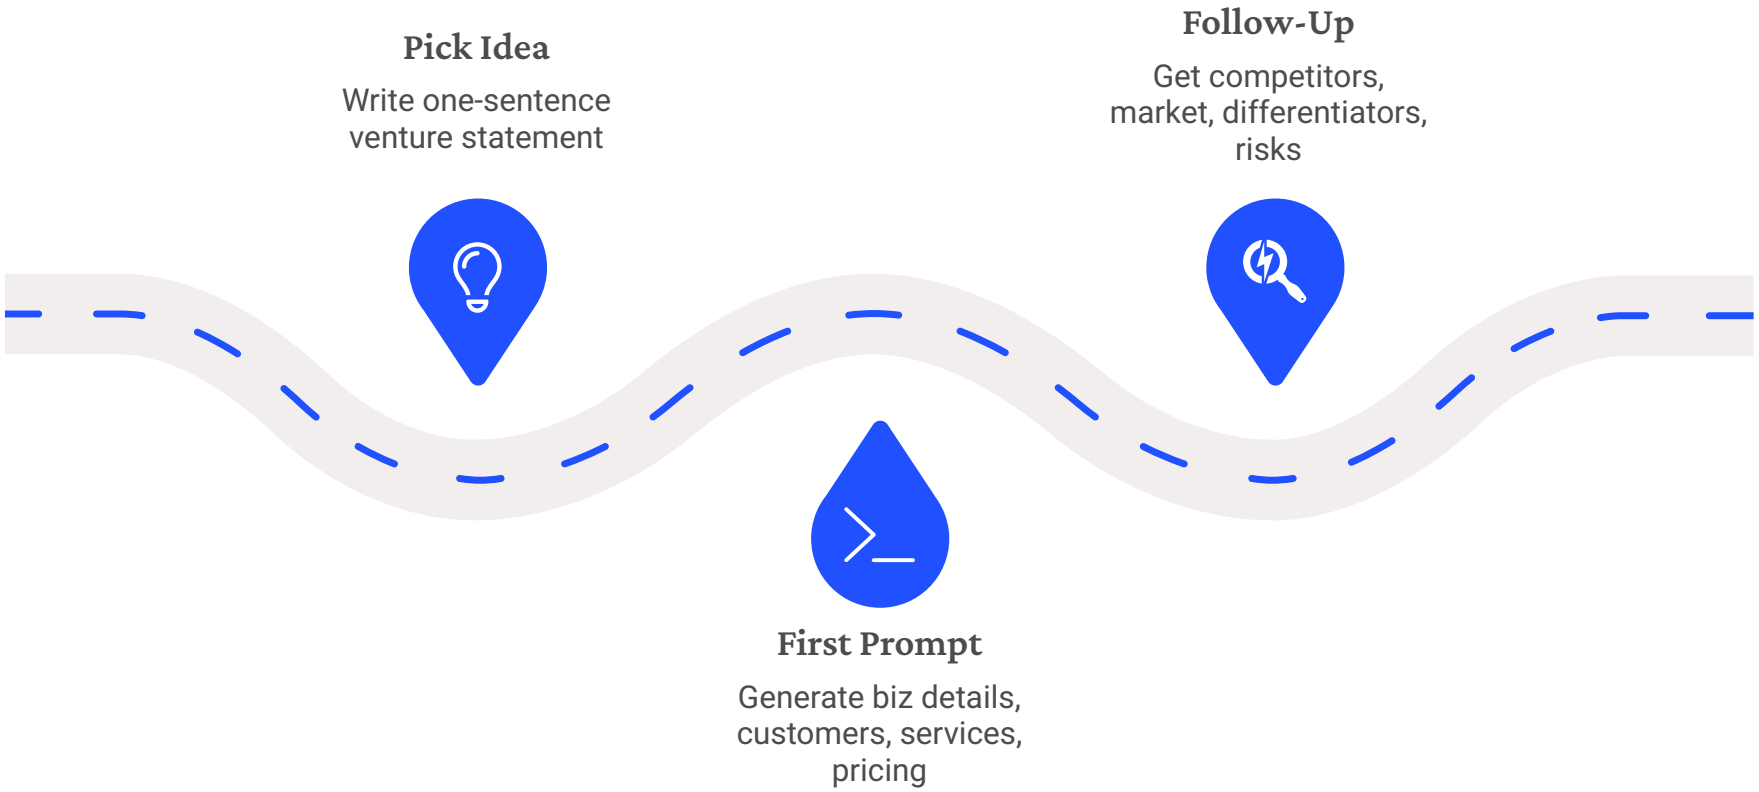
4. **Don't overthink — you can pivot**

   Today is about learning the tools. The idea will sharpen as you build. Action beats analysis at this stage.

🛠️ HANDS-ON EXERCISE

20 MINUTES

Your Venture Blueprint



Three timed steps. Follow the exact prompts on the next card. Everything you produce in these 20 minutes becomes your Module 1 deliverable.

The Exact Prompts to Use in osmAgent

*"I want to start a **[YOUR IDEA]** business targeting **[YOUR AUDIENCE]** in India. Help me create:*

1. A one-paragraph business description
2. Target customer profile with demographics and pain points
3. Top 5 services or products with suggested pricing in INR
4. Revenue model
5. Why this business is perfect for AI agent automation"

STEP 3 PROMPT — DEEP DIVE

"For my business:

1. Who are the top 5 competitors in India?
2. What is the estimated market size?
3. Suggest 3 unique differentiators
4. What is the biggest risk and how do I mitigate it?"

Copy these prompts exactly. The specificity is what makes osmAgent's output actionable.

Deliverable Check — What You Should Have by 10:30

If you followed the prompts, osmAgent has generated a near-complete business brief in under 20 minutes. Verify each item below.

1	**Venture Statement** One clear sentence: I am building ___ for ___ because ___
2	**Business Description** One paragraph defining what you do and how
3	**Target Customer Profile** Demographics, psychographics, and core pain points
4	**5 Services + Pricing** Named offerings with INR price points attached
5	**Revenue Model** How the business makes money — subscription, per-project, retainer
6	**Competitor & Market Intel** Top 5 competitors, market size, and your 3 differentiators

All of this in 20 minutes. This is what AI agent automation looks like in practice.

Evaluation — Self-Grade Your Venture

Rate yourself **1 (weak) to 5 (strong)** on each dimension. Be honest — this is your baseline, not your ceiling.

#	Criterion	What Good Looks Like	Your Score /5
1	**Clear problem being solved**	Real, named pain point with evidence	__ / 5
2	**Defined target customer**	Specific segment — not "everyone"	__ / 5
3	**Viable revenue model**	Clear path to first ₹10,000	__ / 5
4	**Fully agent-creatable**	Scores 4+ on the 5-point test	__ / 5
5	**Competitive differentiation**	At least one credible unique angle	__ / 5
	TOTAL	20–25: Strong. 15–19: Refine one area. Below 15: Revisit idea.	**__ / 25**

Key Takeaway

> You don't need a *perfect* idea. You need a *good-enough* idea that passes the agent-creatable test.

Your Role

Bring domain knowledge and customer empathy. You are the strategic mind.

AI's Role

Heavy lifting on validation, research, writing, and refinement. It does the work.
