Module 4: Your AI Receptionist

Never Miss a Customer — Deploy an osmTalk Chatbot on Your Website

12:30 – 1:00 PM

30-MINUTE SESSION

Session Structure

What We'll Cover in 30 Minutes

Instruction

10 min

The business case + live demo

Exercise

15 min

Deploy your own chatbot

Evaluation

5 min

Score your bot on 4 criteria

Goal: By 1:00 PM, your AI receptionist will be live — answering customer questions around the clock.

The 3:47 AM Problem

A potential customer visits your website in the middle of the night. They have one question: **"Do you deliver to Kondapur?"**

Without a Chatbot

- No reply until morning
- Customer browses 3 competitors who answer instantly
- Lost forever — you never even knew they were there

With osmTalk

- Immediate: *"Yes! We deliver to Kondapur."*
- Customer stays, browses, and books
- Revenue captured — while you slept

The Business Case

The Cost of a Missed Customer

₹75

Per Missed Call

Average revenue lost per unanswered inquiry in service businesses

40%

After-Hours Inquiries

Of all inbound customer questions arrive outside business hours

24/7

Chatbot Availability

Every inquiry captured — mornings, nights, weekends, holidays

A chatbot doesn't replace your team. It ensures no opportunity slips through the cracks while your team is unavailable.

Platform Capabilities

What osmTalk Can Do for Your Business

Conversational Intelligence

Deep reasoning, emotional intelligence, and natural pacing — answers feel human, not robotic.

Bookings & Scheduling

Handles appointment setting and call scheduling directly in the chat window.

Lead Qualification

Asks the right questions before escalating to a human — so you only speak to warm leads.

70+ Languages

Serves customers in their preferred language with 99.9% uptime — no specialist hiring required.

Live Demo — Chatbot Setup

Watch the instructor build a working chatbot in real time.

01

Create Agent

Open osmTalk dashboard → New Agent → Name it

02

Feed Knowledge Base

Add services, pricing, FAQs, and business description

03

Customize Widget

Match brand colors, add logo and welcome message

04

Embed & Test Live

Paste snippet on website — chat with it on the projected screen

15-Minute Exercise

Deploy Your Chatbot — Step by Step

1

Create Your Agent *(3 min)*

Go to **app.osmtalk.com** → New Agent → Name: *"[Your Brand] Assistant"*

2

Build Knowledge Base *(5 min)*

Use osmAgent to generate 15 FAQs covering services, pricing, booking, hours, payments & refunds. Paste into osmTalk with your business description.

3

Customize Widget *(4 min)*

Set brand colors, logo, welcome message: *"Hi! Welcome to [Brand]. How can I help?"* Add after-hours message.

4

Embed & Test *(3 min)*

Paste embed snippet on your website. Test: ask about services, pricing, booking, and one off-topic question.

osmAgent prompt: *"Generate 15 FAQs and answers for [brand name], covering services, pricing, booking, hours, location, payments, refunds, and 5 industry-specific questions."*

Quality Assurance

Testing Checklist & Evaluation Rubric

Before You Submit — Test These

- Does it greet naturally and warmly?
- Does it answer service questions accurately?
- Does it handle "I don't know" gracefully?
- Does it capture contact information?
- Does the brand voice match your Module 2 identity?
- Does it look good on mobile?

Evaluation Rubric — Rate 1 to 5

Criterion	Score
Greets naturally and warmly	/5
Answers service questions accurately	/5
Handles unknown questions gracefully	/5
Brand voice consistent with Module 2	/5
Total	**/20**

Milestone Moment 🎉

It is **1:00 PM.** In just **3 hours**, you have built:

✅ Validated Idea

A venture concept tested against real market logic

✅ Brand Identity

A complete visual and verbal brand from Module 2

✅ Live Website

A professional web presence — built and published

✅ AI Receptionist

A chatbot answering customers 24/7 in 70+ languages

> Most funded startups with 5-person teams don't reach this milestone in their first 3 months. **You did it in one morning.**

Lunch Break — 1:00 PM to 2:00 PM

Enjoy Lunch. Explore Each Other's Work.

Visit your peers' websites. Chat with their bots. See how osmTalk performs across different industries and brand voices.

🌐 Browse Websites

Visit at least 2 classmates' live sites — give feedback on design and clarity.

🤖 Chat the Bots

Ask each bot a tricky question. Notice how different knowledge bases shape different answers.

🚀 Return at 2:00 PM

The afternoon sessions begin — and it gets even better from here.

You are no longer a participant in a workshop. You are a founder with a live digital business. The afternoon builds on everything you've created today.
