Launch announcements pushed to your entire contact list instantly.

Outbound Calls

AI voice agent reaches cold leads — professional, scalable, 24/7.

SEO + Referrals

Google search traffic (Module 3) and word-of-mouth compound over time.

Middle & Bottom of Funnel

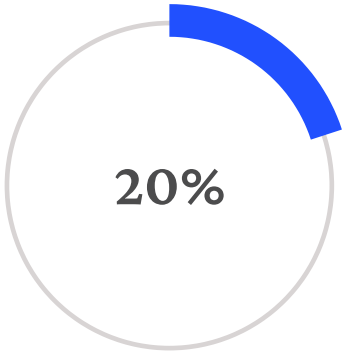
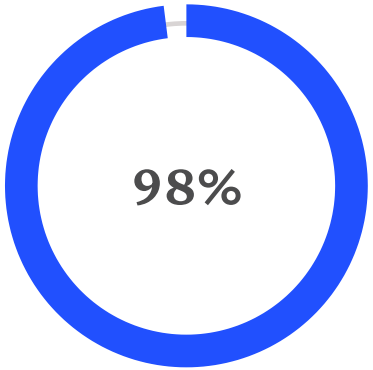
The WhatsApp Advantage

Where Your Customers Actually Live



Email Open Rate



WhatsApp Open Rate

osmTalk broadcasts to your list, auto-replies to every lead individually, and runs Day 1/3/7 follow-up sequences — at scale. **Not spam. Intelligent, personalized, automated conversation.**

Nurture Sequence

The 5-Email Welcome Framework

1 — Day 0

Welcome — Your story, your brand, what to expect next.

2 — Day 2

The Problem — The #1 pain you solve and exactly how you solve it.

3 — Day 5

Social Proof — A customer success story (AI-generated, realistic).

4 — Day 8

Launch Offer — 20% off or free consultation. Clear CTA.

5 — Day 12

Last Chance — Urgency, scarcity, direct call-to-action.

Each email: compelling subject line, under 200 words, brand voice from Module 2, single clear CTA.

AI-Powered Outreach

Outbound Lead Generation Calls

osmTalk's outbound voice agent dials leads while you sleep. Every call follows a proven, non-pushy script structure.

Key principle: **Never pushy. Always professional. Always leave the door open.**

Opening

"Hi, I'm calling from [Brand]. We just launched [service] — do you have 2 minutes?"

If Yes → Qualify

3-sentence value prop. Qualify on need, budget, and timeline. Book appointment if interested.

If No → Exit Gracefully

"No problem. You can always reach us at [website]. Have a great day."
