Module 7: Show Me the Money + Operations

Session 7 of 7 · 3:50–4:40 PM · 50 Minutes

🕐 **15 min** Instruction	⚙️ **25 min** Exercise
✅ **10 min** Evaluation	

Session Goal

Close the business loop.

By the end of this session, every participant will have a fully operational business — collecting payments, delivering support, and running daily operations — powered entirely by AI agents.

💳 Payments

UPI links, invoices, pricing strategy, and automated confirmations

🎧 Support

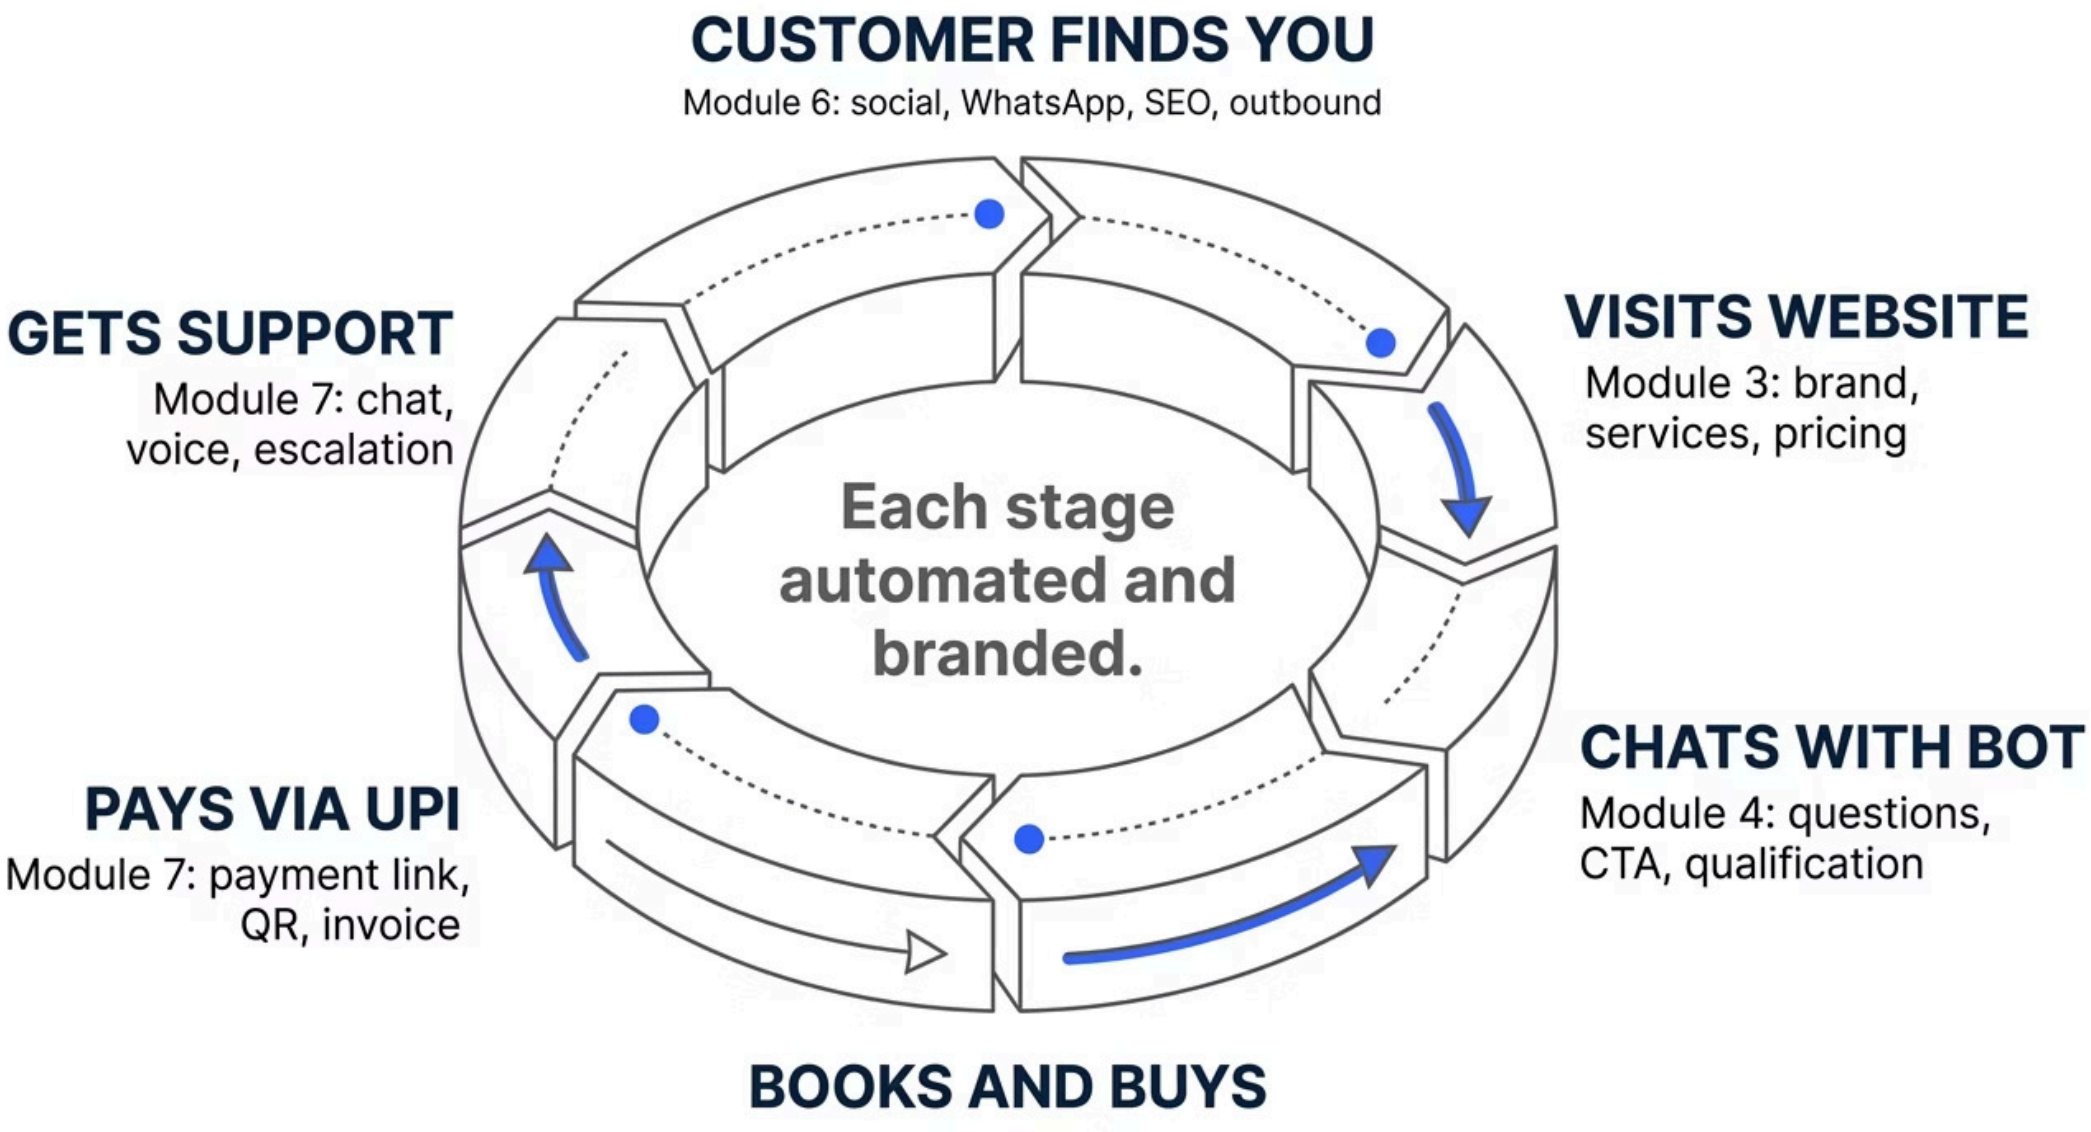
Text and voice agents handling 80% of post-sale queries automatically

⚙️ Operations

SOPs, hiring, onboarding docs, compliance, and analytics — all AI-generated

The Complete Business Loop

Every module you built today connects into a single, seamless customer journey. This session adds the final two layers — payments and support — completing the loop.



Payments and Revenue

Four components transform your service into a complete, professional revenue engine.

1	**UPI Payment Links** Generate a unique payment link per service tier — embed directly on website CTA buttons for zero-friction checkout
2	**Invoice Generation** osmAgent creates branded invoices with logo, GST details, UPI QR code, and payment terms — automatically
3	**Pricing Strategy** osmAgent benchmarks competitors and recommends 3 tiers: Basic, Standard (Recommended), and Premium
4	**Payment Confirmation** osmTalk auto-sends WhatsApp: "Payment received! Your [service] is confirmed for [date/time]."

3-Tier Pricing Architecture

osmAgent analyzes competitors and positions your services for maximum revenue capture across customer segments.

Basic

Entry-level

- Price-sensitive customers
- Core service only
- Self-serve delivery
- Captures market share

⭐ Standard

Most Popular — RECOMMENDED

- Highest conversion rate
- Full service delivery
- Priority support included
- Best margin-to-volume ratio

Premium

All-inclusive, highest margin

- VIP clients and corporates
- White-glove experience
- Dedicated account support
- Maximises revenue per client

ⓘ osmAgent prompt: *"Suggest optimal pricing for [services] — 3 tiers: Basic, Standard (recommended), Premium — based on competitors in [city/category]."*

Customer Support System

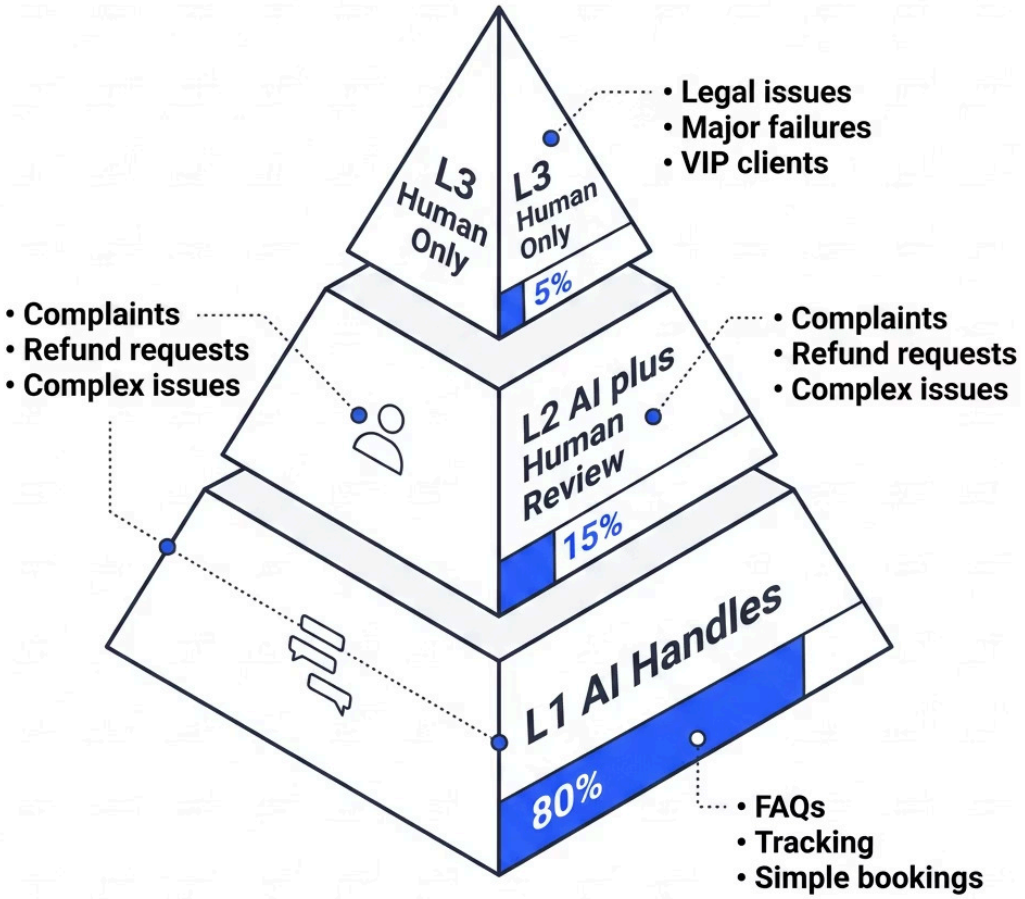
Post-sale support is where most businesses fail. Your AI handles **80% of it automatically** — across text, voice, and escalation paths.

Text Support — osmTalk Chatbot

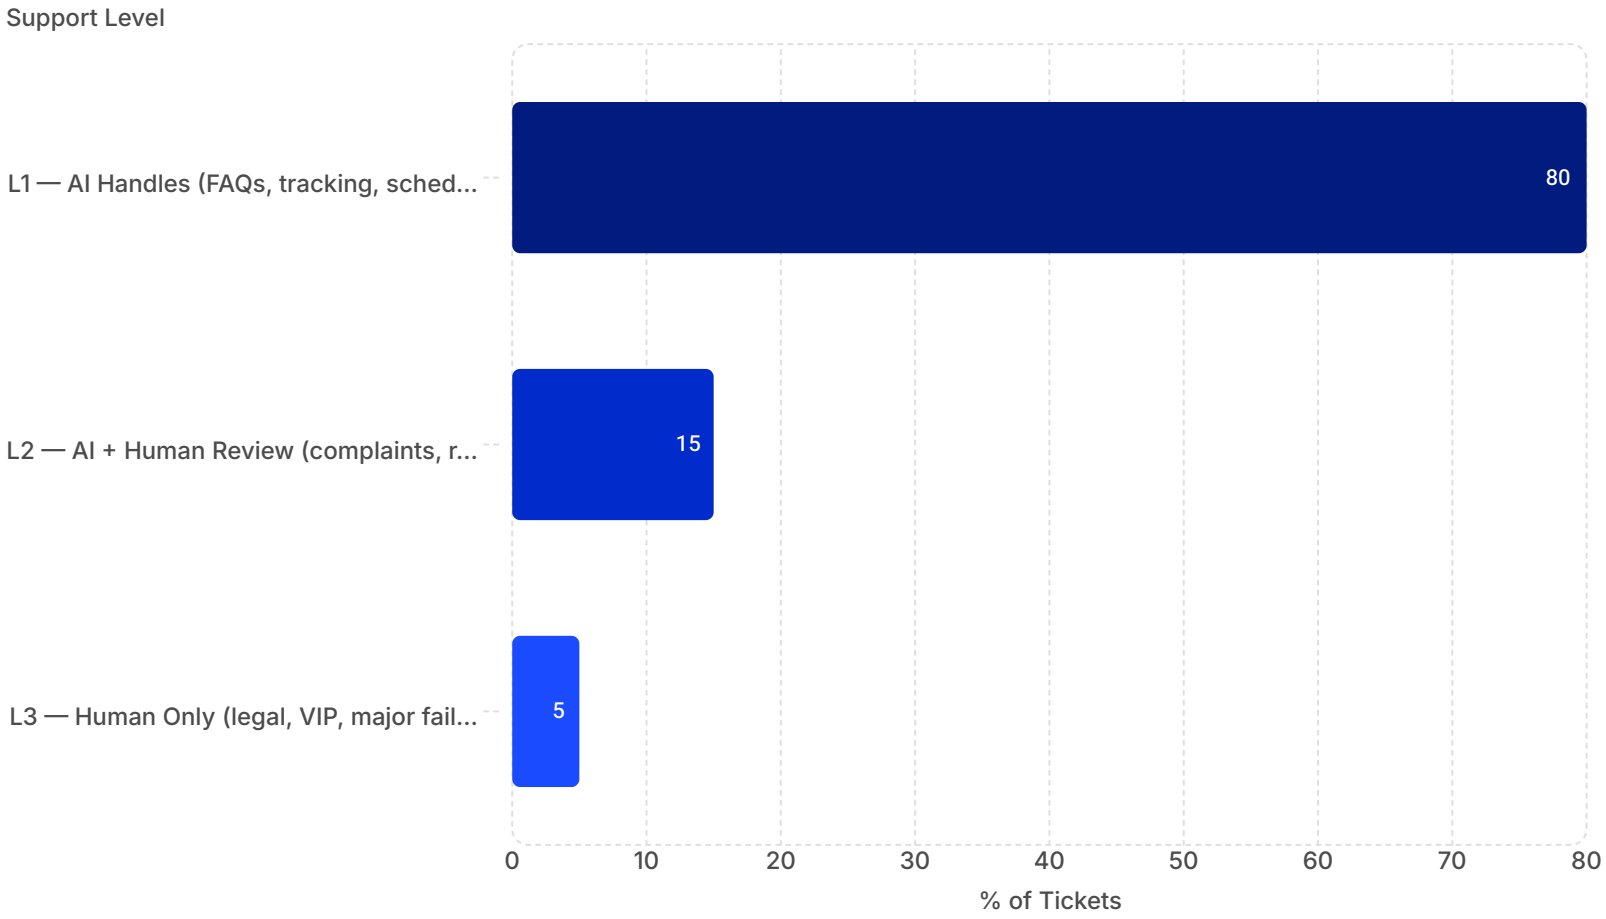
- Post-purchase FAQs
- Order tracking and status updates
- Complaint acknowledgement and handling
- Feedback collection (rating + open comment)

Voice Support — osmTalk Voice Agent

- "Thank you for calling [Brand Name] support. Let me help."
- Common issue resolution with empathetic tone
- Detailed call logging and escalation triggers



Support Escalation — By the Numbers



Designed correctly, your AI support system resolves **4 out of 5 customer issues** without any human involvement — reducing cost while maintaining quality.

Operations and Team Building

osmAgent and osmTalk don't just handle customers — they run your back office too.

Hiring Pipeline

Your recruiting voice agent (Module 5) screens candidates automatically — no HR overhead required

Onboarding

osmAgent generates employee handbook, role expectations, and a complete first-week checklist

SOPs

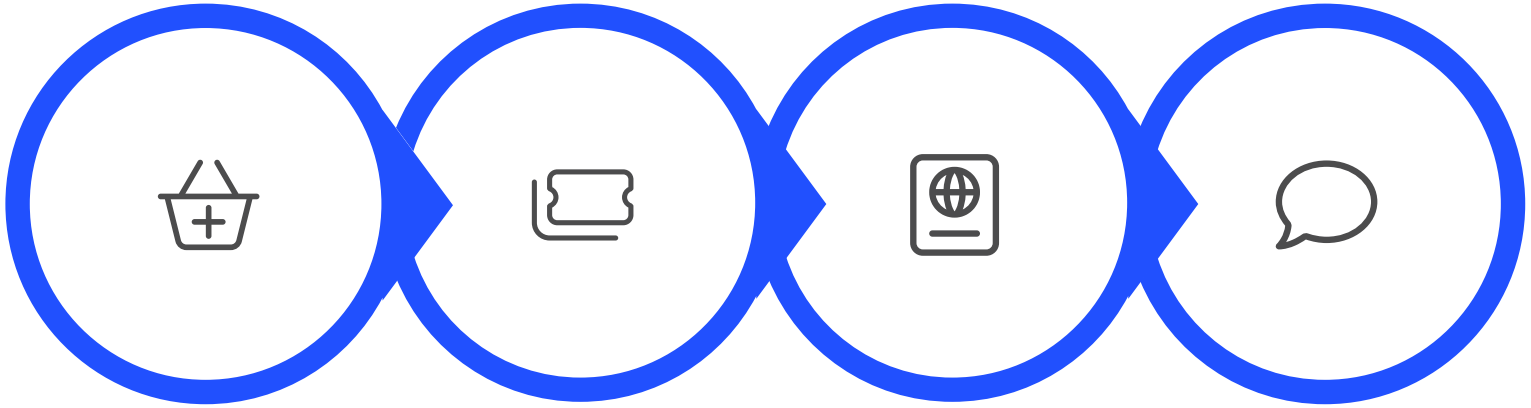
Step-by-step Standard Operating Procedures auto-generated for your top 3 services

Analytics

osmTalk dashboard: call volumes, resolution rates, customer satisfaction scores — live

Exercise: Revenue and Ops Engine

25 MINUTES · HANDS-ON



Payments Support Operations End-to-End

Work through each step in sequence. Every output you create becomes a permanent asset in your live business infrastructure.

End-to-End Test Checklist

Before evaluation, every participant must complete this 10-point journey — as a real customer would experience it.

- [ ] Visit website — loads correctly?
- [ ] Read services and pricing — clear and compelling?
- [ ] Chat with bot — answers questions accurately?
- [ ] Bot captures lead info (name, contact, need)?
- [ ] Click booking or payment CTA — functional?
- [ ] Payment link opens and works end-to-end?
- [ ] Call voice agent — answers professionally?
- [ ] Voice agent handles a real inquiry correctly?
- [ ] Send WhatsApp message — gets an accurate reply?
- [ ] Overall experience feels polished and professional?

All 10 boxes checked = your business is live and fully operational.

Evaluation Rubric

RATE 1–5 ON EACH · TOTAL SCORE: /25

#	Evaluation Criterion	Score (1–5)
1	Payment flow is clear and fully functional	__ / 5
