The ROI Case: What You Built vs. What It Would Have Cost

Every system you activated today would have required significant agency spend or full-time headcount. Here is what the market charges — and what you paid.

Capability	Agency / Market Cost	Your Cost (AI-Powered)
Brand Identity	₹50K – ₹2L (one-time)	₹0
Website	₹50K – ₹5L (one-time)	₹0
AI Chatbot	₹20K – ₹1L/month	₹2,000 – ₹5,000/mo
Voice Agent	₹1L – ₹3L/month	₹5,000 – ₹15,000/mo
Lead Generation	₹50K – ₹2L/month	₹5,000 – ₹10,000/mo
Sales Funnel	₹30K – ₹1L/month	₹0
Customer Support	₹50K – ₹2L/month	₹5,000 – ₹10,000/mo
Recruiting Engine	₹1L – ₹3L/month	₹5,000 – ₹10,000/mo
Year 1 Value	**₹5L – ₹20L**	**₹20K – ₹50K/mo**

10–40× cheaper. Same output. Fraction of the cost. This is the AI advantage you now own.

One Week Ago, This Did Not Exist.

Today it does.

One week ago, this venture had no name, no website, no customers, no systems, and no team. Brand

Identity, voice, and visual presence — built and live.

Website

Conversion-ready, mobile-optimized, and indexed.

AI Workforce

Chatbot, voice agent, and support — running 24/7.
