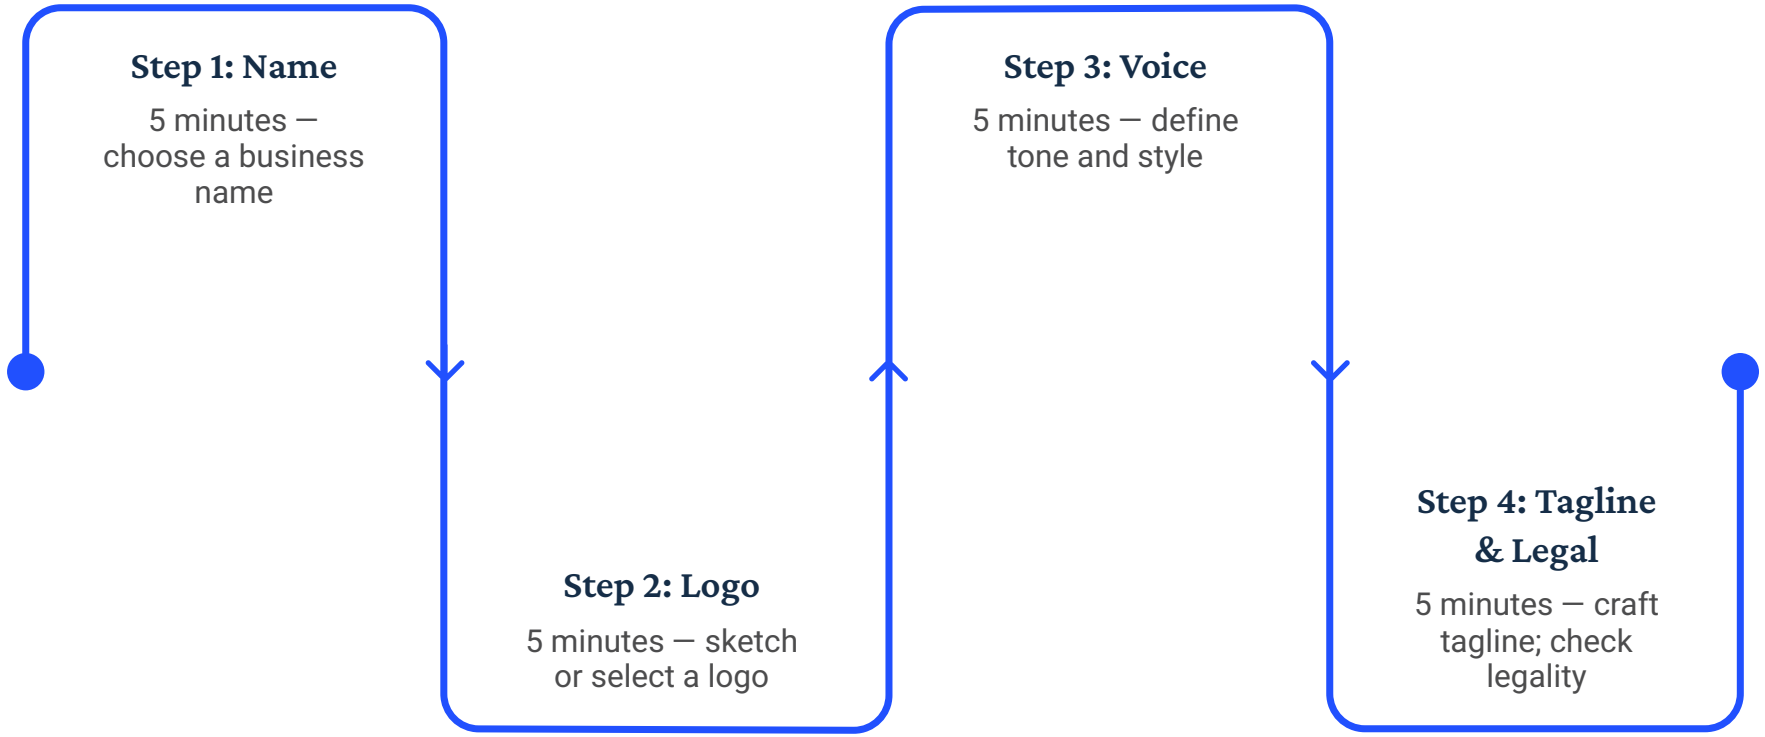
Exercise Overview: 20 Minutes, 4 Steps

Each step is exactly 5 minutes. Use the exact prompts shown on the following slides — copy them word for word into osmAgent, substituting only your business details in the brackets. Do not improvise the prompt structure.



Complete each step before moving to the next. Your outputs from Step 1 and Step 2 become the inputs for Steps 3 and 4 — sequence matters.

Step 1 — Name Your Brand

⏱️ 5 MINUTES

Your Exact Prompt

"Generate 10 names for [describe your business in one sentence]. Names must be memorable, easy to spell, and ideally have a .com domain available. For each name, explain the meaning and why it fits."

What to Do

1. Replace `[describe your business]` with your one-line concept
2. Run the prompt in osmAgent
3. Pick your top 3 names from the list
4. Check .com availability at namecheap.com (2 min)
5. Select your final name — you will use it in every subsequent step

Step 2 — Create Your Logo

⏱️ 5 MINUTES

Your Exact Prompt

"Create a logo for [NAME]. Style: [choose one — modern / minimal / bold / playful]. Generate 3 distinct concepts. For each, describe the icon, font style, and color palette. Explain the brand story behind each concept."

What to Do

1. Insert the final name from Step 1
2. Choose exactly one style word — do not mix
3. Review all 3 concepts osmAgent generates
4. Select the concept that best matches your target customer archetype (Luxury / Mid-Range / Budget)
5. Note the color palette — you will use it in Step 3

Step 3 — Define Your Brand Voice

⏱️ 5 MINUTES

Your Exact Prompt

"Define the brand voice for [NAME]. Provide: 3 personality words, overall tone, 5 sample social media posts, email greeting style, how to handle a customer complaint, and a list of 5 words we always use and 5 words we never use."

What to Do

1. Insert your brand name from Step 1
2. Run the prompt — review all outputs carefully
3. Check: does the voice match your chosen archetype (Luxury / Mid / Budget)?
4. If not, add one line: *"Make the tone more [archetype]"* and regenerate
5. Save the "words always / never" list — it governs all future content

Step 4 — Tagline, Pitch & Legal

⏱️ 5 MINUTES

Your Exact Prompt

"For [NAME]: Write 5 tagline options (under 7 words each), a 30-second elevator pitch, Instagram bio (150 chars), LinkedIn company description (300 chars), Twitter/X bio (160 chars), a Terms of Service, and a Privacy Policy for an Indian e-commerce business."

What to Do

1. Insert your brand name
2. Run the prompt in osmAgent
3. Pick your single best tagline — it should reflect your voice archetype
4. Save all 3 social bios — you will use them in Module 3
5. Save ToS and Privacy Policy documents — legally required for your website
