Module 6: Growth Engine

Build a fully AI-powered sales funnel — from first touch to loyal customer — using osmAgent, WhatsApp automation, and smart outbound sequences. This module combines a live demo, structured exercises, and a scored review to put your growth engine in motion.

2:50–3:40 PM

15 MIN DEMO · 25 MIN EXERCISE · 10 MIN REVIEW

Session Roadmap

Here is exactly what we will cover in the next 50 minutes. Follow this sequence to build your complete AI-powered growth system from scratch.

01

Live Demo (15 min)

Watch osmAgent generate a 30-day content calendar in 45 seconds and see the full funnel in action.

02

Hands-On Exercise (25 min)

Four timed steps: content calendar, WhatsApp sequences, outbound script, and funnel mapping.

03

Group Review (10 min)

Score your output against the rubric — 25 points across five critical growth dimensions.

The AI-Powered Sales Funnel

Every stage of your customer journey is now automatable. osmAgent covers the full funnel — from discovery to loyalty — without adding headcount.

Four Stages, Zero Gaps

1

Find Them

Social media, WhatsApp outbound, SEO, paid ads

2

Engage Them

Website chatbot, email sequences, WhatsApp replies

3

Close Them

Consult flows, UPI payment links, testimonial nudges

4

Retain Them

Support automation, upsell triggers, referral programs

Each stage is driven by AI prompts you control — no developer required. The funnel runs 24/7 and scales with demand, not with your calendar.

WhatsApp vs. Email

98%

WhatsApp open rate — nearly **5× higher** than email's 20%.

Why This Changes Everything

When you send an email, 4 out of 5 recipients never see it. On WhatsApp, virtually every message is opened — usually within minutes. For Indian SMBs, where customers live on their phones, WhatsApp is not a nice-to-have. It is your primary growth channel.

- Instant delivery, near-instant reads
- Two-way conversation at scale
- Broadcast + auto-reply + follow-up in one tool

LIVE DEMO — 15 MINUTES

osmAgent in Action: 30-Day Calendar in 45 Seconds

A social media manager costs Rs 30,000–60,000 per month. Watch osmAgent produce the same output in under a minute — then replicate it yourself in the exercise that follows.

The 5-Email Welcome Sequence Framework

Every new lead deserves a structured nurture journey. This proven 12-day sequence moves prospects from curiosity to conversion — fully automated, fully AI-written.

1

Day 0 — Welcome

Deliver immediate value. Confirm their decision to join. Set expectations for what's coming.

2

Day 2 — Problem

Articulate the core pain they feel. Show you understand their world better than anyone else.

3

Day 5 — Success Story

Share a client result that mirrors their situation. Social proof that your solution works.

4

Day 8 — Offer

Present your product or service clearly. Make it easy to say yes with a direct CTA.

5

Day 12 — Urgency

Time-bound incentive or limited availability. Convert fence-sitters before the window closes.

HANDS-ON EXERCISE — 25 MINUTES

Build Your Growth Engine — Now

Four timed steps. Follow the exact prompts below. Work independently — your output will be scored at the end of the session.

Exercise Walkthrough: Step by Step

1

Step 1 — 8 Minutes

Prompt: *"Create a 30-day social media content calendar for [your business] and a 5-email welcome sequence following the Day 0 / 2 / 5 / 8 / 12 framework."*

2

Step 2 — 7 Minutes

Prompt: *"Write a WhatsApp broadcast template, an auto-reply message, and follow-up messages for Day 1, Day 3, and Day 7."*

3

Step 3 — 5 Minutes

Prompt: *"Write an outbound sales agent script for cold WhatsApp or phone outreach targeting [your ideal customer]."*

4

Step 4 — 5 Minutes

Prompt: *"Map my business's top-of-funnel, middle-of-funnel, and bottom-of-funnel touchpoints and suggest one AI automation for each."*

Review Rubric — Scored Out of 25

Each participant's output will be evaluated across five dimensions. Use this rubric to self-assess before the group debrief begins.

Dimension	What We Look For	Points
Content Calendar	30 days, varied formats, brand-consistent tone	/5
WhatsApp Sequence	Broadcast + auto-reply + Day 1/3/7 follow-ups	/5
Outbound Script	Clear hook, value prop, and call-to-action	/5
Funnel Mapping	Top / middle / bottom identified with AI touchpoints	/5
Channel Integration	Social, WhatsApp, email, and outbound all addressed	/5

Target score: 20/25 or above to confirm your Growth Engine is production-ready.

10-MINUTE BREAK

MODULE 6 OF 7 COMPLETE

Growth Engine: Done. One Module to Go.

You have now built the core of an AI-powered business — from content creation to lead nurturing to closing. Take a well-earned 10-minute break. Module 7 begins at 3:50 PM and brings everything together.

Before you step away: save all your osmAgent outputs from this session. You will need them in the final module.
