Module 9: Your Venture is Live

Closing & Launch Plan | 4:40–5:00 PM | 20 Minutes

This is the moment everything comes together. In the next 20 minutes, you will see your venture operate as a real business — live, in front of the room. Your website, your AI workforce, your payments — all running. Let's make it official.

The Live Walkthrough

INSTRUCTOR ACTION

Pick 2 participants. Project their ventures on screen. Walk through the complete customer journey — live, step by step, in front of the entire room.

01

Open the Website

Navigate like a first-time customer. Read the hero headline aloud. Click through services. Check pricing.

02

Chat with the Bot

Ask 3 questions live: *"What do you offer?"* → *"How much?"* → *"I want to book."*

03

Call the Voice Agent

On **speakerphone**. The entire room listens. Hold a full 60-second conversation with the AI.

04

Show the Payment Link

Open the UPI payment flow live. Demonstrate the complete checkout experience end to end.

05

Test Support

Type: *"I have a complaint about my last order."* Show how the AI handles a real objection gracefully.

After each walkthrough, ask the room: **"Would you buy from this business?"** — Then celebrate. Applaud loudly.

Venture Readiness Scorecard

INSTRUCTOR: PROJECT THIS — GIVE 3 MINUTES TO ADD UP SCORES

Tally your scores from every module. This number tells you exactly where you stand and what to do next.

Module	Max Points	Your Score
Module 2 — Idea & Validation	25	___
Module 3 — Brand Identity	25	___
Module 4 — Website	25	___
Module 5 — AI Chatbot	20	___
Module 6 — Voice AI Suite	25	___
Module 7 — Growth Engine	25	___
Module 8 — Payments & Ops	25	___
TOTAL	**170**	**___**

145+ Points

LAUNCH-READY. Start selling tomorrow. No excuses.

115–144 Points

ALMOST THERE. 2–3 hours of polish is all you need.

85–114 Points

STRONG FOUNDATION. One week of focused refinement.

Below 85

GOOD START. Revisit weak modules using your workbook.

The Cost of What You Built Today

Every tool you built this week would cost a traditional business **₹5–20 Lakhs in Year 1.** You built the same output for a fraction of the price — using AI. Here is the full breakdown.

What You Built	Agency Cost	Your Cost
Brand Identity	₹50K – ₹2L	₹0
Website (5 pages, SEO, mobile)	₹50K – ₹5L	₹0
AI Chatbot (24/7, 70+ languages)	₹20K–₹1L/mo	₹2–5K/mo
Voice Agent (inbound + outbound)	₹1–3L/mo	₹5–15K/mo
Lead Gen (WhatsApp + calls)	₹50K–₹2L/mo	₹5–10K/mo
Sales Funnel + Content	₹30K–₹1L/mo	₹0
Payment System	₹10–30K	₹0
Customer Support (text + voice)	₹50K–₹2L/mo	₹5–10K/mo
Recruiting Call Center	₹1–3L/mo	₹5–10K/mo

₹20L

Traditional Cost

What agencies charge for Year 1 equivalent infrastructure

₹50K

Your Cost

Maximum annual spend using AI tools you set up today

40x

Cheaper

Same output. Same quality. Fraction of the cost.

Your 7-Day Launch Plan

Tear Out and Stick on Your Desk

This is not aspirational. This is your operating schedule for the next seven days. Each day has one clear mission. Execute in order. Do not skip days.

1 **Monday**

Refine website + chatbot based on today's feedback. Fix every issue from the end-to-end test.

2 **Tuesday**

Finalize 3 pricing tiers. Set up UPI payment links. Create 3 test invoices and verify flow.

3 **Wednesday**

Publish first 5 social media posts from your 30-day calendar. Set up Google Business Profile.

4 **Thursday**

Send WhatsApp launch campaign to 50 contacts. Let the AI handle every single reply automatically.

5 **Friday**

Activate outbound lead gen voice agent. Target 20 prospects. Review call recordings.

6 **Saturday**

Full end-to-end test. Ask 3 friends to go through the entire customer journey. Fix every gap.

7 **Sunday**

LAUNCH. Post on LinkedIn. Start accepting customers. You are officially live.

Monday–Wednesday: Build the Foundation

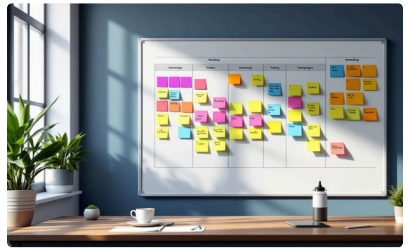
The first three days are about hardening your infrastructure so it performs flawlessly when customers arrive. Every gap you close now is a sale you won't lose later.

Monday: Fix Everything

Open your website. Go through it as a customer would. Refine every page based on today's live feedback. Retest your chatbot with 5 new questions. Update any broken or confusing responses.

Tuesday: Money Infrastructure

Define your 3 pricing tiers clearly — name, price, and what's included. Generate UPI payment links for each tier. Send 3 test invoices to yourself and confirm end-to-end payment receipt.



Wednesday: Go Visible

Schedule and publish your first 5 posts from the 30-day content calendar. Claim and complete your Google Business Profile. Add photos, hours, services, and a welcome post.

Thursday–Sunday: Ignite and Launch

The final four days shift from building to selling. Your AI workforce handles the volume — you focus on strategy and fixing gaps in real time.

Thursday: First Campaign

Send a WhatsApp launch message to your first 50 contacts. Use the template you built in Module 7. Let the AI bot handle every reply — do not respond manually.

Friday: Outbound Activated

Switch on your outbound voice agent. Load 20 qualified prospects. Review call recordings at end of day. Adjust the script based on objections heard.

Saturday: Stress Test

Ask 3 friends or family members to act as real customers. Send them through the complete journey cold — no coaching. Document every friction point and fix it before Sunday.

Sunday: You Are Live

Post your launch announcement on LinkedIn. Announce in the community WhatsApp group. Begin accepting your first real customers. The venture is officially open for business.

While You Sleep Tonight

🤖 Chatbot

Answering customer questions in 70+ languages. No breaks. No missed messages.

📞 Voice Agent

Taking inbound phone calls. Qualifying leads. Booking appointments on your behalf.

💬 WhatsApp Bot

Nurturing every lead in your pipeline. Following up. Moving people toward a purchase.

🌐 Website

Converting visitors into customers. Your best salesperson — always on, never tired.

> You are sleeping. That is the point. You built an AI workforce that works when you don't — and that changes everything.

Venture of the Day

INSTRUCTOR ACTION

Step 1: Ask the room — *"Who built the most impressive venture today?"*
Step 2: Conduct a quick applause vote. The loudest response wins.
Step 3: Bring the winner forward. Project their venture one final time.
Step 4: Lead a full room round of applause. Take a group photo if possible.
Step 5: Remind the room — every single one of them built something real today.

Recognition matters. Celebrating a peer's work reinforces that this is achievable. Every participant in this room launched a real business today. That deserves acknowledgment.

Join the Community

Your First Support Network

Your classmates are not just peers — they are your earliest customers, collaborators, and referral partners. The community WhatsApp group is where you will share wins, ask questions, trade referrals, and hold each other accountable through the 7-day launch sprint.

Scan the QR code to join now — before you leave the room.

Share your first win in the group by Monday evening.

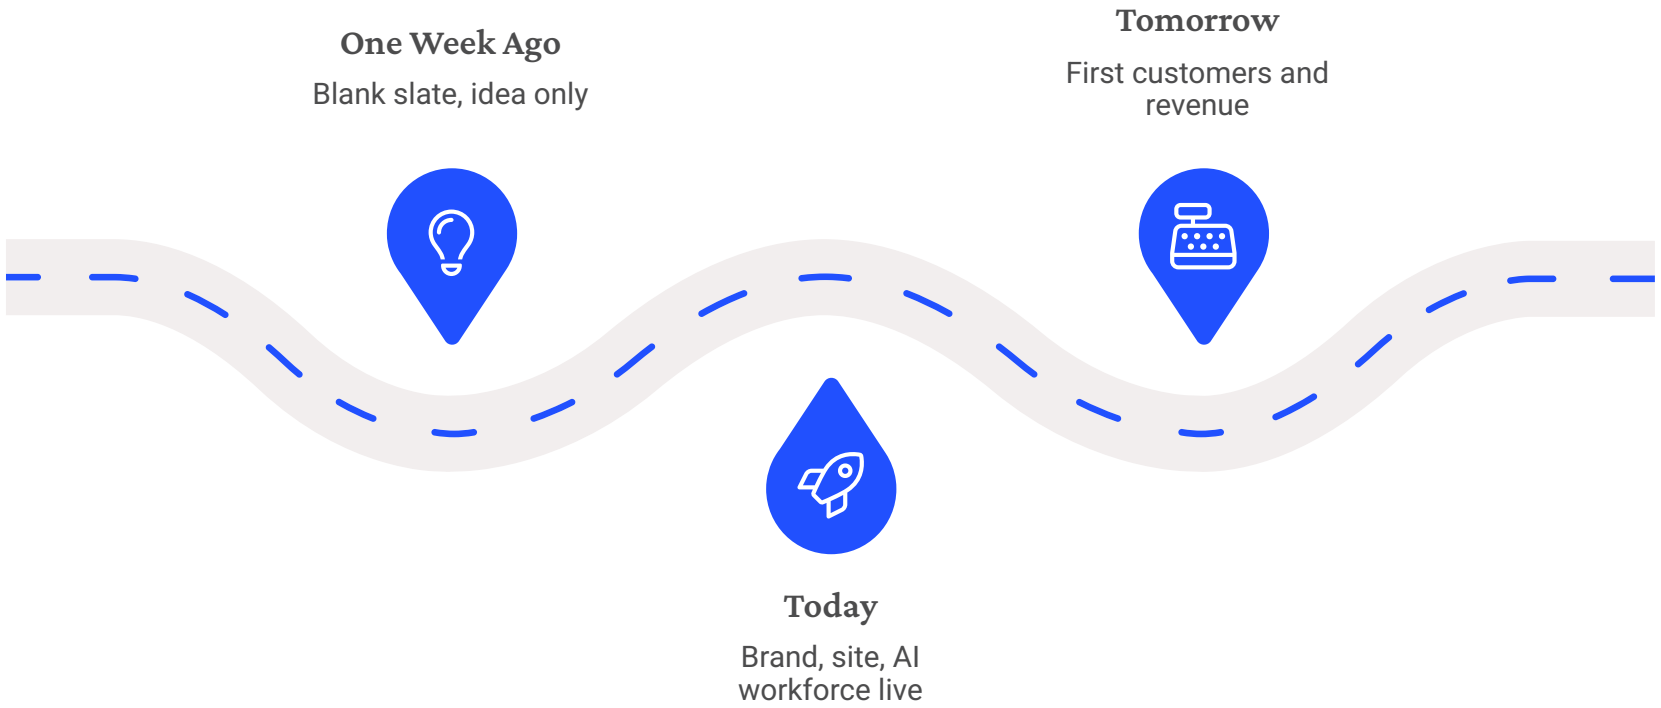
- **Instructor Contact:** [Your contact details] — Direct line for questions during your 7-day launch sprint
- **Workbook:** All module exercises available digitally — revisit any section at any time

One Last Thing



Seven days ago, this venture was an idea in your head. Today it has a brand, a website, an AI workforce, a payment system, and a growth engine — all live and operational. You did not just learn about AI. You deployed it. The only question left on the table is: **when are you launching?**

> The best time to start was before today. The second best time is right now. You have everything you need. Go.

You Are Ready. Launch.

Complete your scorecard

Know your number. Know your next action. Be honest about gaps.

Pin your 7-day plan

Take a photo of the launch schedule. Set daily reminders. Execute without deviation.

Join the community now

Scan the QR code before leaving the room. Post your venture name as your first message.

Post on Sunday

LinkedIn. WhatsApp. Wherever your customers are. Tell the world your venture is open.

Congratulations. You built a real business with an AI workforce in one program. That is not a small thing. Now go sell.
