AI Venture Builder Masterclass

Build. Scale. Support. All With AI Agents.

osmAgent | osmAPI | osmTalk

APRIL 20, 2026

INSTRUCTOR: ARJUN

Today's Agenda — Your Full Day

Eight power-packed modules from 9:30 AM to 5:00 PM. By end of day, you will have a fully operational venture — live, real, and functional.

9:30–10:00
Module 1: Opening & Setup ← **You Are Here**

10:00–10:45
Module 2: Find Your Idea

10:45–11:30
Module 3: Build Your Brand

11:45–12:30
Module 4: Build Your Website

12:30–1:00
Module 5: Deploy AI Chatbot

2:00–2:50
Module 6: Voice AI & Call Center

2:50–3:40
Module 7: Growth Engine

3:50–5:00
Modules 8 & 9: Payments, Operations & Launch Plan

Lunch + Venture Gallery: 1:00–2:00 PM | Breaks at 11:30 AM (15 min) and 3:40 PM (10 min)

The Promise — What You Walk Out With at 5 PM

This is not a simulation. Every deliverable below will be **live, functional, and yours** by 5:00 PM today.

Your Venture, Built Today

1. Validated venture idea with business plan
2. Complete brand — name, logo, voice, tagline, legal docs
3. Deployed website anyone can visit right now
4. AI chatbot answering customer questions 24/7
5. Voice agent picking up phone calls
6. Recruiting bot screening job candidates

Your Growth Stack, Live Today

1. WhatsApp automation for lead nurturing
2. 30 days of social media content
3. 5-email marketing sequence
4. UPI payment collection with invoicing
5. Customer support system
6. Operations documents — SOPs, scripts, onboarding

LIVE DEMO — Watch Me Build a Business in 5 Minutes

⚠ INSTRUCTOR ACTION: Switch to osmAgent on the projector NOW before proceeding.

1

Minute 0–1: Brand Creation

Type in osmAgent: *"I want to start a premium home-cooked meal delivery service in Hyderabad for busy IT professionals. Create a business name, logo, tagline, and brand voice."*

Show the room: Name options, logo, and tagline generated live.

2

Minute 1–3: Website Deployed

Type: *"Now build me a website with homepage, meal plans page, pricing with 3 tiers, about page, and contact form."*

Show: Full website deployed. Open on your phone for the room to see.

3

Minute 3–4: Chatbot Live

Switch to osmTalk. Create chatbot. Feed it the business description. Embed on website. Demo: type *"What meal plans do you offer?"* — show the AI answering instantly.

4

Minute 4–5: Voice Agent Call

Call the pre-configured osmTalk voice agent on speakerphone. Live conversation: *"Hi, I want to order meals for the week."* The entire room hears the AI respond in real time.

> "5 minutes. A brand. A website. A chatbot. A phone line. Rs. 0 in developer salaries."

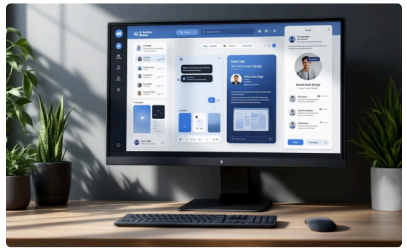
The Old Way vs. Today — A Dramatic Comparison

What used to take a full founding team, multiple agencies, and months of runway now takes a single person and a single morning. The cost and time savings are not incremental — they are transformational.

Dimension	❌ The Old Way	✅ Today With AI
Time to Launch	3–6 months of planning, building, testing	**5 minutes** — live by end of demo
Cost	Rs. 5–50 lakhs in agency fees and salaries	**Rs. 0** in developer costs
Team Required	8–12 people: designers, devs, copywriters, PMs	**1 person** with a laptop
Platforms Used	Multiple agencies, tools, contracts, handoffs	**3 AI platforms** — osmAgent, osmTalk, osmAPI
Skills Needed	Coding, design, copywriting, legal, marketing	**Plain English** — or Hindi

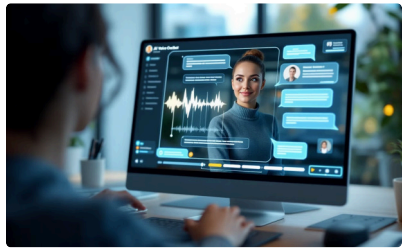
Your Toolkit — 3 Platforms, One Complete Venture

Every tool you use today is purpose-built for speed, scale, and simplicity. No code. No design skills. No technical background required.



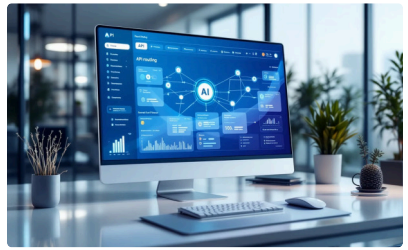
osmAgent — Your Builder

Tell it what to build in plain English or Hindi. It creates brands, websites, business plans, social media content, legal documents, and invoices. **Zero code. Zero design skills required.**



osmTalk — Your Workforce

Chatbot on your website. Voice agent on your phone. Bot on WhatsApp. Handles **10,000 concurrent calls**, speaks **70+ languages**, works **24/7** — no breaks, no sick days.



osmAPI — Your Engine

Routes to OpenAI, Anthropic, Google, Sarvam 105B, and 14+ AI providers. **INR billing. Indian data centers.** Supports all **22 Indian languages** natively.

How Every Module Works — The I·E·R Rhythm

Every module today follows the same three-phase format. Learn it once — you will know what to expect for the next 7 hours.

Phase 1 — I DEMO

Duration: 10–15 min
I build something live on the projector. You watch, you absorb. Laptops closed.

Phase 2 — YOU BUILD

Duration: 15–25 min
You execute on your laptop. Follow the exercise sheet in your workbook. I walk the room and help.

Phase 3 — WE REVIEW

Duration: 5–10 min
I pull up 1–2 of your builds on the projector. Live feedback. You self-grade using the rubric.

7 modules × this rhythm = 1 complete, fully operational venture by 5 PM.

TASK: Account Setup — Do This Right Now

⚠ INSTRUCTOR: Project this slide. Walk through each step live. Wait for the entire room before proceeding.

Step 1 — osmAPI Account (3 min)

1. Open your browser
2. Go to **osmAPI.com**
3. Click **"Sign Up"**
4. Enter your email and create a password
5. Check email for verification (check spam/promotions)
6. Click the verification link
7. Confirm you see the **osmAPI dashboard**

Step 2 — osmTalk Account (3 min)

1. Open a new browser tab
2. Go to **app.osmtalk.com**
3. Click **"Sign Up"**
4. Enter email, create password, verify
5. Confirm you see the **osmTalk dashboard**

Step 3 — Open osmAgent (2 min)

1. Return to osmAPI.com dashboard
2. Click on **"osmAgent"**
3. You should see a chat interface
4. Type **"Hello"** and press Enter to confirm it works

Raise your hand if you are stuck on any step. We will come to you immediately.

Your Workbook — What You Have in Front of You

The printed booklet on your table is your companion for the entire day. Every prompt, every rubric, every idea is inside. Open it now and keep it within reach throughout every module.

Exercise Sheets for All 7 Modules

Exact prompts to copy-paste directly into osmAgent and osmTalk. No improvisation needed — just follow the sheet step by step.

Self-Grading Rubrics

After every module, score your own build against the rubric. Know exactly where you stand before we move to the next phase.

Venture Idea Gallery — 25+ Ideas

Not sure what to build? Browse the curated gallery of validated business ideas across industries, cities, and customer segments.

Venture Readiness Scorecard & 7-Day Launch Plan

Complete the scorecard at day's end. Take the 7-Day Launch Plan home — your exact action steps for the first week after today.

Ground Rules — Read These Now

1. No Stupid Questions

Most of you have built more businesses than I have. Today I show tools — you bring judgment. Ask anything, any time.

2. Laptops: Open vs. Closed

Laptops **open** during BUILD phase. Laptops **closed** during DEMO phase. Your full attention on the projector during demos is mandatory.

3. Help Your Neighbor

If the person next to you is stuck and you are not — be generous. A rising tide lifts all ventures. This is a team environment.

4. Everything You Build Is Yours

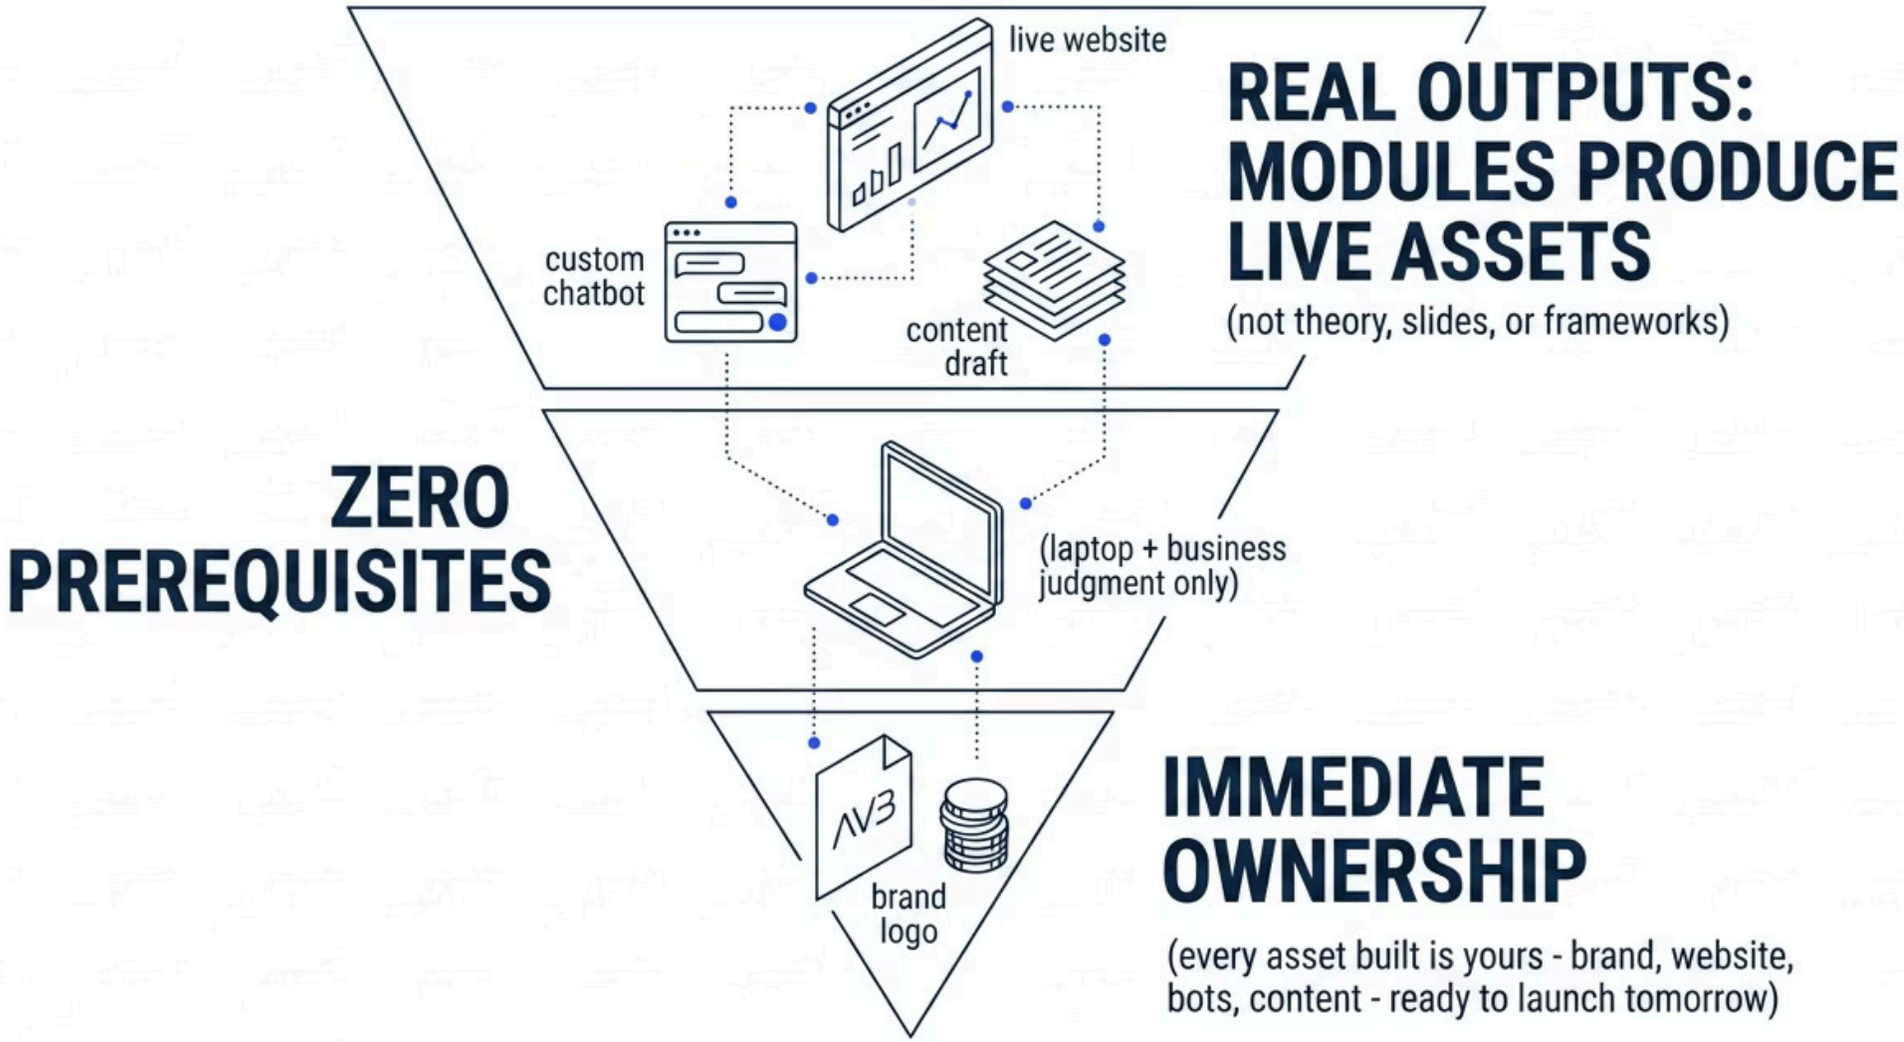
Every asset, every brand, every website you create today belongs to you. Take it, launch it, and profit from it.

5. We Stay on Schedule

If you fall behind during a module, the workbook has every prompt — catch up during breaks. We will not wait, but you will not be lost.

What Makes This Different From Every Other Workshop

Most masterclasses end with slides and takeaways. This one ends with a live business. Here is why the format is designed the way it is.



The standard for success today: If you can type a sentence, you can build a venture. That is the only prerequisite in this room.

The AI Stack Behind Today — Why These 3 Platforms

osmAgent, osmTalk, and osmAPI were selected because together they cover the full venture lifecycle — from ideation to operations — without requiring you to switch ecosystems or learn new tools mid-day.

🇮🇳 Built for India

INR billing. Indian data centers. All 22 Indian languages supported. No USD conversion, no foreign data residency concerns.

⚡ Speed Without Compromise

Routes to 14+ AI providers — OpenAI, Anthropic, Google, Sarvam 105B — so you always get the best model for the task at hand.

📞 Enterprise Scale, Day One

osmTalk handles 10,000 concurrent calls. Your AI workforce scales from 0 to enterprise instantly — no hiring, no training, no HR.

🔒 No-Code, No Risk

Plain English and Hindi instructions. No syntax errors, no broken deployments, no developer dependencies. If you can describe it, it gets built.

Your Success Metrics — How We Measure a Great Day

At 5:00 PM, you will complete the Venture Readiness Scorecard in your workbook. Here is exactly what a top score looks like across the four dimensions that matter.

12/12

Deliverables Completed

All 12 live assets — brand through operations — fully built and deployed before 5 PM.

7/7

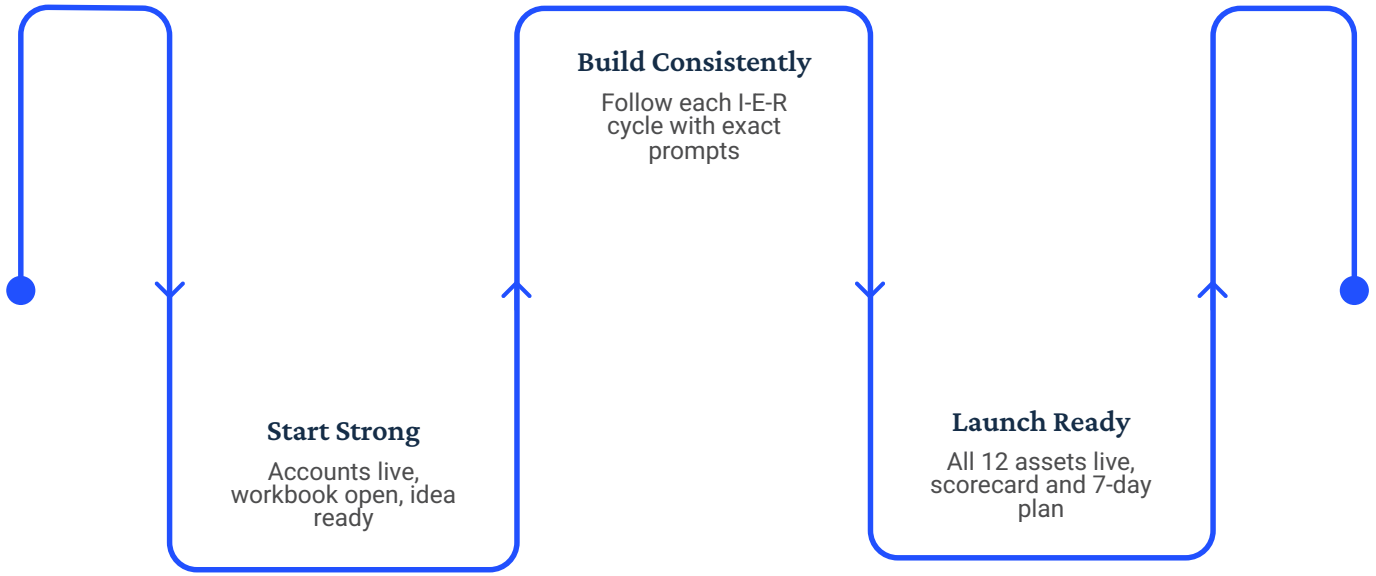
Modules Executed

Every I·E·R cycle completed: Demo watched, build executed, rubric self-graded.

100%

Assets Are Yours

Every output saved, exported, and ready to launch — not a sandbox, not a demo account.



Let's Begin

Module 2: Find Your Idea

Open your workbook to **Module 2: Find Your Idea**. Your first exercise sheet is waiting. We start in **60 seconds.**

✅ Accounts Verified

osmAPI + osmTalk + osmAgent all confirmed working

📖 Workbook Open

Turned to Module 2 exercise sheet, pen in hand

🚀 Mindset Set

You are here to build a real business — not watch one be built

By 10:45 AM, you will have a validated venture idea and a complete business plan — generated, refined, and ready to build on. The clock starts now.
